

==== MELINZERG OUTPOST GAMMA ====

DIMENSIONAL TRANSFER & COLONIAL SCIENCE LOG

LOCATION: MELINZERG BASIN

ORIGIN AUTHORITY: BEREN GULLS INTERDIMENSIONAL EVACUATION INITIATIVE

LOG ENTRY 01 - APRIL 3, 1985

TRANSFER DISH GAMMA BROUGHT ONLINE AT 0400 LOCAL. ATMOSPHERIC SCANS OF MELINZERG STABLE: OXYGEN-RICH, HEAVY SPORE DENSITY, MEGAFLOTA CONSISTENT WITH LATE TRIASSIC ANALOG. NATIVE MEGAFUNA AUDIBLE BUT DISTANT.

FIRST TRANSFER WINDOW TO BEREN GULLS SUCCESSFUL. TWELVE EVACUEES ARRIVED WITH MINIMAL TRANSIT NAUSEA. DARK MATTER REACTOR STABLE AT 62% OUTPUT. NO DIMENSIONAL SHEAR ANOMALIES RECORDED.

MORALE HIGH. WE HAVE PROOF THAT RELOCATION IS VIABLE.

LOG ENTRY 02 - APRIL 18, 1985

SEVENTH TRANSFER COMPLETED. TOTAL EVACUEES: 113.

MINOR INTERFERENCE DETECTED DURING TODAY'S WINDOW---BACKGROUND RADIATION SPIKES IN THE DARK MATTER CONTAINMENT TORUS. DR. BALICK SUGGESTS EARTH-SIDE ATMOSPHERIC IONIZATION MAY BE INTERFERING WITH HARMONIC LOCK.

JUNGLE PERIMETER SECURED. MOTION SENSORS TRIGGERED TWICE LAST NIGHT---SMALL BIPEDAL REPTILIAN FORMS OBSERVED AT TREELINE. APPROXIMATELY 1.7 METERS TALL. RETREATED WHEN SPOTLIGHTS ENGAGED.

TRANSFER PROGRAM PROCEEDING AS PLANNED.

LOG ENTRY 03 - MAY 2, 1985

TRANSFER EVENT 14 EXPERIENCED CATASTROPHIC DISH FEEDBACK AT 0932. VISUAL RECORD SHOWS PHASE APERTURE DESTABILIZATION MID-MATERIALIZATION. THREE EVACUEES ARRIVED SAFELY; FOURTH SUFFERED PARTIAL PHASING TRAUMA---FATAL.

TRANSFER DISH GAMMA EMITTER ARRAY BURNED OUT FROM OVERLOAD. DARK MATTER FLOW SPIKED BEYOND REDLINE FOR 4.2 SECONDS. AUTOMATIC DAMPENERS PREVENTED CORE BREACH.

EARTH-SIDE SIGNAL INTEGRITY DEGRADING. HARMONIC LOCK REQUIRED 38% MORE POWER THAN BASELINE.

REPLACEMENT DISH COMPONENTS SCHEDULED FOR FABRICATION. ESTIMATED DOWNTIME: 9 DAYS.

PERIMETER PATROL REPORTS INCREASED SIGHTINGS OF THE BIPEDAL SAURIANS. EVIDENCE OF TOOL USE OBSERVED---CUT VINE BINDINGS NEAR SUPPLY CRATES.

LOG ENTRY 04 - MAY 21, 1985

REPLACEMENT TRANSFER DISH INSTALLED.

FIRST TEST CONNECTION POST-REPAIR REQUIRED NEAR-MAXIMUM REACTOR OUTPUT. SIGNAL LATENCY FROM EARTH NOW 3.4 SECONDS LONGER THAN APRIL READINGS. VISUAL FEED FROM BEREN GULLS UNSTABLE---SKY DISCOLORATION NOTED. ELECTRICAL STORMS CONSTANT.

SUCCESSFUL TRANSFER OF 9 EVACUEES, THOUGH TWO ARRIVED WITH RADIATION BURNS NOT CONSISTENT WITH OUR TRANSIT PROCESS. LIKELY EARTH EXPOSURE.

LAST NIGHT: CONFIRMED RAID BY INDIGENOUS "SAURANS." SIX INDIVIDUALS BREACHED OUTER FENCE. THEY CARRIED SHARPENED BONE SPEARS AND A SALVAGED FLOODLIGHT BATTERY---TAKEN FROM OUR WASTE PILE WEEKS AGO. ONE GUARD INJURED BEFORE THEY RETREATED.

THEY ARE LEARNING.

LOG ENTRY 05 - JUNE 9, 1985

TRANSFERS INCREASINGLY DIFFICULT. DARK MATTER CONTAINMENT FIELD OSCILLATES UNPREDICTABLY DURING APERTURE FORMATION. DR. BALICK WARNS THE DARK MATTER HARVESTED ON EARTH MAY BE ENTERING A METASTABLE DECAY STATE.

TODAY'S WINDOW FLICKERED THROUGH THREE NON-TARGET SPATIAL SIGNATURES BEFORE LOCKING ONTO BEREN GULLS. BRIEF VISUAL CONTACT WITH UNKNOWN STELLAR FIELDS.

EVACUEE COUNT NOW 302.

SAURAN ACTIVITY ESCALATING. THEY STRUCK STORAGE MODULE B AND REMOVED PACKAGED RATIONS AND TWO PULSE CARBINES. TOOL SOPHISTICATION INCREASING. OBSERVED COORDINATED FLANKING BEHAVIOR.

WE ARE FORTIFYING.

LOG ENTRY 06 - JUNE 28, 1985

EARTH COMMUNICATIONS FRAGMENTARY. BEREN GULLS SKYLINE PARTIALLY OBSCURED BY ATMOSPHERIC PARTICULATE---DARK VIOLET CLOUD FORMATIONS. SEISMIC DISTORTIONS VISIBLE ON REMOTE FEED. DIMENSIONAL NOISE OVERWHELMING STANDARD FILTERS.

TRANSFER 31 NEARLY FAILED---APERTURE RING FORMED ASYMMETRICALLY. CONTAINMENT TORUS TEMPERATURE AT 91% THRESHOLD.

TWO EVACUEES REPORT SEEING "RED LIGHTNING" IN EARTH'S SKY BEFORE DEPARTURE.

SAURANS ATTACKED DURING THE TRANSFER WINDOW, POSSIBLY DRAWN BY ENERGY SURGE. THEY ATTEMPTED TO BREACH THE REACTOR ANNEX, REPELLED WITH NON-LETHAL CHARGES, THOUGH ONE SAURAN ESCAPED CARRYING A DAMAGED PULSE CARBINE.

WE CAN NO LONGER TREAT THEM AS WILDLIFE.

LOG ENTRY 07 – JULY 12, 1985

CRITICAL INCIDENT.

ATTEMPTED TRANSFER WINDOW AT 1107. HARMONIC SIGNATURE MATCHED EARTH COORDINATES BUT DRIFTED VIOLENTLY DURING LOCK. APERTURE OPENED ONTO NON-EARTH SPATIAL FIELD.

VISUAL FEED: CRIMSON PARTICULATE VOID. NO STARS. NO PLANETARY BODIES. GEOMETRIC SHADOWS MOVING WITHIN RED LUMINESCENCE.

UNIDENTIFIED STRUCTURES PRESSED AGAINST APERTURE BOUNDARY FROM THE OPPOSITE SIDE.

CONTAINMENT ALARMS TRIGGERED IMMEDIATELY. DARK MATTER FLOW SURGED WITHOUT INPUT. REACTOR CORE ENTERED SPONTANEOUS RESONANCE, AS IF RESPONDING TO AN EXTERNAL SIGNAL.

WE SEVERED THE LINK AT 3.8 SECONDS.

TWO TECHNICIANS SUFFERED NEURAL HEMORRHAGING FROM EXPOSURE TO RED-SPECTRUM RADIATION BLEED.

DR. BALICK HAS DESIGNATED THE PHENOMENON "RED SPACE."

FURTHER ATTEMPTS TO FORCE HARMONIC CORRECTION RISK ANCHORING THAT DIMENSION TO MELINZERG.

EARTH SIGNAL NOW UNDETECTABLE.

LOG ENTRY 08 – JULY 20, 1985

FINAL COUNCIL DECISION: TRANSFER OPERATIONS TERMINATED INDEFINITELY.

DARK MATTER REACTOR EXHIBITS RESIDUAL RESONANCE MATCHING RED SPACE FREQUENCY BANDS. EVEN INACTIVE, THE CORE HUMS AT SUB-AUDIBLE LEVELS.

WE WILL NOT ATTEMPT ANOTHER CONNECTION. A STABLE APERTURE TO RED SPACE WOULD MEAN INCURSION. GIVEN THE PRESSURE OBSERVED AGAINST THE BOUNDARY MEMBRANE, WE ESTIMATE A FULL BREACH WOULD RESULT IN TOTAL FACILITY LOSS WITHIN MINUTES.

SHUTDOWN PROCEDURES EXECUTED:

- TRANSFER DISH GAMMA DISASSEMBLED AND EMITTER CRYSTAL SHATTERED TO PREVENT REASSEMBLY.

- DARK MATTER CONTAINMENT CORE REDUCED TO COLD STATE AND SEALED WITHIN BORON-CARBIDE SARCOPHAGUS.
- METASAUR SENTRY UNIT ACTIVATED AT PRIMARY DISH PLATFORM. AUTONOMOUS TARGETING CALIBRATED FOR EXTRA-DIMENSIONAL ENERGY SIGNATURES AND HOSTILE MEGAFUNA.
- BLAST DOORS SEALED ACROSS ALL SUBLEVEL CORRIDORS.
- OUTER PERIMETER ELECTRIFIED CONTINUOUSLY.

SAURAN SCOUTS OBSERVED AT TREELINE DURING SHUTDOWN. THEY WATCHED IN SILENCE.

EVACUEE TOTAL STANDS AT 347 SOULS. NO FURTHER ARRIVALS EXPECTED.

MELINZERG IS NOW HUMANITY'S ONLY CONFIRMED REFUGE.

IF EARTH STILL EXISTS, IT IS BEYOND OUR REACH.

PER ORDERS FROM COMMAND CENTER, THIS LOG AND STATUS IS TO BE SEALED AND REDACTED ON SITE.

NO FURTHER ORDERS OR EXPLANATION GIVEN.
